SUMMARY

Front-end web developer with 2+ years building and shipping production web applications, specialized in TypeScript, modern JavaScript (ES6+), and component-based UI architecture. Sole owner of the web ecosystem at a health-technology company, delivering measurable gains in performance, SEO, and internationalization. Experienced in server-side rendering, RESTful API and third-party integrations, and responsive, accessible interfaces. Fluent English (C1) and fluent working with AI-assisted development tools.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL

Frameworks & Libraries: React, Next.js, Astro.js, Preact, Node.js, Express.js, TailwindCSS

Front-End Engineering: Component-Based Architecture, Server-Side Rendering (SSR), Responsive Design, Single-Page Applications (SPA), Performance Optimization, Web Accessibility, RESTful API Integration, Cross-Browser Compatibility

Tools & Platforms: Git, GitHub, Figma, Adobe XD, WordPress, Google Lighthouse, HubSpot CRM, reCAPTCHA Enterprise

AI-Assisted Development: Claude, GitHub Copilot, Gemini

Methodologies: Agile, Scrum, Version Control, Code Review, SEO, UI/UX Design

PROFESSIONAL EXPERIENCE

Eniax — Health-Technology Company | Remote, Chile

December 2024 – Present

Front-End Web Developer

- Own and maintain the entire corporate web ecosystem as the sole developer, using Astro.js, TypeScript, Preact, TailwindCSS, and an Express.js/Node.js backend.
- Raised the average Google Lighthouse performance score from 65 to 93 and achieved a perfect 100/100 SEO score through performance tuning and web best practices.
- Engineered an automatic language-detection system (ES/EN/PT) with server-side middleware, cookie management, and manual user override.
- Integrated Google reCAPTCHA Enterprise across multiple contact and registration forms, resolving cross-component widget rendering conflicts.
- Built event-registration platforms for international conferences (Bogotá, Miami) with HubSpot CRM integration, TypeScript validation logic, and robust form handling.

Ripley Corp | Santiago, Chile

August 2023 – November 2023

User Experience (UX/UI) Intern

- Ran 5 usability-testing rounds (~10 users each), identifying improvement opportunities across critical digital experience flows.
- Built reusable UI components in Figma for the corporate design system, aligned to established design standards.
- Supported the UX audit and redesign of an internal last-mile delivery application, improving key operational flows.

EDUCATION

Duoc UC | Santiago, Chile

2023 – June 2025

Degree in Web Development and Design

- Focus on human-centered design, front-end development, and agile collaborative methodologies.

Pontificia Universidad Católica de Valparaíso | Valparaíso, Chile

2018 – 2022

Studies in Medical Technology

- Health-sciences foundation applicable to health-technology product development.

LANGUAGES & ADDITIONAL
